5. SURVEY ORGANIZATION: THE GALLUP ORGANIZATION
6. SPONSOR: LEADING REPUBLICAN, DEMOCRATIC  
AND INDEPENDENT NEWSPAPERS
7. DUPLICATES AVAILABLE FROM  
THE ROPER CENTER FOR PUBLIC OPINION RESEARCH  
P.O. BOX 440  
STORRS, CONNECTICUT 06268-0440

SAMPLE INFORMATION

1. POPULATION UNIVERSE: ADULT CROSS-SECTION-NATIONAL
2. SAMPLING TECHNIQUE: MODIFIED PROBABILITY
3. SAMPLE SIZE: 1607
4. METHOD OF SAMPLING:  
All Gallup polls since 1950, excluding certain special surveys, have been based on a national probability sample of interviewing areas. Refinements in the sample design have been introduced at various points in time since then. However, over this period the design in its essentials has conformed to the current procedure, as follows:
  1. The United States is divided into seven size-of-community strata: cities of population 1,000,000 and over; 250,000 to 999,999; and 50,000 to 249,999; with the urbanized areas of all these cities forming a single stratum; cities of 2,500 to 49,999; rural villages; and farm or open country rural areas.
  2. Within each of these strata; the population is further divided into seven regions: New England, Middle Atlantic, East Central, West Central, South, Mountain, and Pacific Coast.
  3. Within each size-of-community and regional stratum the population is arrayed in geographic order and zoned into equal-sized groups of sampling units.
  4. In each zone, pairs of localities are selected with probability of selection proportional to the size of each locality's population--producing two replicated samples of localities.

5. Within selected cities for which population data are reported by census tracts or enumeration districts, these sample subdivisions are drawn with probability of selection proportional to the size of the population.
6. For other cities, minor civil divisions, and rural areas in the sample for which population data are not reported by census tracts or enumeration districts, small, definable geographic areas are drawn, with the probability of selection proportional to size where available data permit; otherwise with equal probability.
7. Within each subdivision selected for which block statistics are available, a block or block cluster is drawn with probability of selection proportional to the number of dwelling units.
8. In cities and towns for which block statistics are not available, blocks are drawn at random, that is, with equal probability.
9. In subdivisions that are rural or open country in character, segments approximately equal in size of population are delineated and drawn with equal probability.
10. In each cluster of blocks and each segment so selected, a randomly selected starting point is designated on the interviewer's map of the area. Starting at this point, interviewers are required to follow a given direction in the selection of households, taking households in sequence, until their assigned number of interviews has been completed.
11. Within each occupied dwelling unit or household reached, the interviewer asks to speak to the youngest man 18 or older at home, or if no man is at home, the oldest woman 18 or older. This method of selection within the household has been developed empirically to produce an age distribution by men and women separately which compares closely with the age distribution of the population. It increases the probability of selecting younger men, who are at home relatively infrequently, and the probability of reaching older women in the household who tend to be under-represented unless given a disproportionate chance of being drawn from among those at home. The method of selection among those at home within the household is not strictly random, but it is systematic and objective and eliminates interviewer judgement in the selection process.
12. Interviewing is conducted at times when adults are most likely to be at home, which means on weekends or if on weekdays, after 4:00 P.M. for women and after 6:00 P.M. for men.

13. Allowance for persons not at home is made by a "TIMES-AT-HOME" weighting procedure rather than by "CALL-BACKS." This procedure is a standard method for reducing the sample bias that would otherwise result from underrepresentation of persons who are difficult to find at home.

14. The pre-stratification by regions is routinely implemented by fitting each obtained sample to the latest available Census Bureau estimates of the regional distribution of the population. Also minor adjustments of the sample are made by educational attainment (by men and women separately), based on the annual estimates of the Census Bureau derived from their current population survey. The sampling procedure described is designed to produce an approximation of the adult civilian population living in the United States, except for those persons in institutions such as prisons or hospitals.

15. Percentages presented for each variable are weighted and exclude missing values. Frequencies

---

are unweighted and are given for all values.

5. Response data: RPORC response data file is in EBCDIC format on tape. Data have been cleaned and the final code is numeric (0-9). Stray punches have been recoded as the "NO CODE OR NO DATA" response. Tapes may be ordered according to the following options:
- A. 9 track - 1600, 6250 BPI

VAR 1  
 LOC 1                      WIDTH 4                      MD = none or GE none  
 Survey number.  
 100.0 1607 1278

VAR 2

VAR 3  
 LOC 8                      WIDTH 1                      MD = 0 or GE 4  
 Q01a. Do you approve or disapprove of the way Ronald  
 Reagan is handling his job as president?  
 48.7 783 1. Approve  
 43.0 703 2. Disapprove  
 8.3 121 3. No Opinion

VAR 4  
 LOC 9                      WIDTH 1                      MD = 0 or GE 4  
 Q01b. Apart from whether you approve or disapprove of  
 the way Reagan is handling his job as president, what do  
 you think of Reagan as a person? Would you say you approve  
 or disapprove of him?  
 72.3 1166 1. Approve  
 20.4 330 2. Disapprove  
 7.2 111 3. Don't Know

VAR 5  
 LOC 10                      WIDTH 1                      MD = 0 or GE 7  
 Q01c. How do you think Ronald Reagan will go down in  
 history--as an outstanding president, above average, below  
 average, or poor?  
 8.6 129 1. Outstanding  
 28.2 475 2. Above average  
 34.5 548 3. Average (Volunteered)  
 16.1 259 4. Below average  
 10.0 154 5. Poor  
 2.5 42 6. Don't Know

## VAR 6

LOC 11                      WIDTH 1                      MD = 0 or GE 5  
 Q01d. Is your name recorded in the registration book of  
 the precinct or election district where you now live?

75.7    1271    1.    Yes  
 23.9    329    2.    No  
       0.1       3    3.    Don't have to register  
       0.3       4    4.    Don't Know

## VAR 7

LOC 12                      WIDTH 1                      MD = 0 or GE 5  
 Q02a. How closely would you say you've followed the Iran-  
 contra hearings so far--very closely, fairly closely or  
 not closely?

24.1    413    1.    Very closely  
 44.2    730    2.    Fairly closely  
 31.5    459    3.    Not closely  
       0.3       5    4.    Don't Know

## VAR 8

LOC 13                      WIDTH 1                      MD = 0 or GE 4  
 Q02b. When all the investigations are concluded, do you  
 think President Reagan will turn out to be more involved  
 than he has said in the Iran-contra affair, or not?

65.3    1041    1.    More involved  
 25.5    419    2.    Not more involved  
       9.2    147    3.    Don't Know

## VAR 9

LOC 14                      WIDTH 1                      MD = 0 or GE 6  
 Q02c. If it turns out that President Reagan knew and  
 approved of the use of money from Iran to fund the contras,  
 what do you think should happen...

41.4    681    1.    Reagan should admit his mistakes and  
               apologize?  
 16.9    265    2.    He should resign?  
 12.8    195    3.    Congress should begin impeachment proceedings  
 22.2    362    4.    The matter should be dropped  
       6.7    104    5.    Don't Know

## VAR 10

LOC 15                      WIDTH 1                      MD = 0 or GE 5

Q03a. How important would you say religion is in your life--very important, fairly important, or not very important?

52.8	867	1.	Very important
32.6	510	2.	Fairly important
13.9	218	3.	Not very important
0.8	12	4.	No Opinion

## VAR 11

LOC 16                      WIDTH 1                      MD = 0 or GE 4

Q03b. Do you happen to be a member of a church or synagogue?

70.6	1152	1.	Yes
29.3	454	2.	No
0.0	1	3.	Don't Know

## VAR 12

LOC 17                      WIDTH 1                      MD = 0 or GE 4

Q03c. Did you happen to attend church or synagogue in the last seven days, or not?

37.7	640	1.	Yes
61.5	953	2.	No
0.8	14	3.	Don't Know

## VAR 13

LOC 18                      WIDTH 1                      MD = 0 or GE 6

Q04a. In general, what kind of rating would you give the U.S. Supreme Court--excellent, good, fair, or poor?

9.7	156	1.	Excellent
40.2	657	2.	Good
35.4	562	3.	Fair
6.7	100	4.	Poor
8.0	132	5.	Don't Know

## VAR 14

LOC 19                      WIDTH 1                      MD = 0 or GE 4  
 Q04b. Do you think the Supreme Court has been impartial  
 in its decisions or do you think it has tended to favor  
 one group more than another?

44.4    740    1.    Impartial  
 36.7    569    2.    Favors one group  
 18.9    298    3.    Don't Know

## VAR 15

LOC 20                      WIDTH 1                      MD = 0 or GE 5  
 Q04c. In the future, would you like to see the Supreme  
 Court's decisions move in a more liberal direction or in  
 a more conservative direction?

31.9    509    1.    Liberal  
 41.5    667    2.    Conservative  
 15.7    263    3.    Neither, stay the same (Volunteered)  
 10.8    168    4.    Don't Know

## VAR 16

LOC 21                      WIDTH 1                      MD = 0 or GE 3  
 Q05a. (HAND RESPONDENT CARD A.) Will you please look  
 over this list and tell me which of these persons you  
 have HEARD OF.

37.9    645    1.    Bruce Babbitt-Former Governor of Arizona  
 62.1    962    2.    Not chosen

## VAR 17

LOC 22                      WIDTH 1                      MD = 0 or GE 3
