

Ronald L. Oaxaca is McClelland Professor of Economics and Affiliated Faculty Member, Economics Science Laboratory, University of Arizona. He is a Research Fellow at IZA, Bonn Germany. He has taught at the University of Arizona since 1976. Oaxaca received his Ph.D. in economics from Princeton University in 1971. He taught at the University of Western Ontario (1971-1973) and at the University of Massachusetts (1973-1976). He has held visiting positions at Smith College (1975), Industrial Relations Section, Princeton University (1982), Stanford University Graduate School of Business (1983-84), University of California – Santa Cruz (1997), and the Centre for Labour Market and Social Research, University of Aarhus, Denmark (1997). His research spans the areas of labor market discrimination, experimental economics, and econometrics. Oaxaca has published on a variety of topics including gender wage differentials, unemployment insurance, minimum wages, laboratory tests of job search models, laboratory evaluation of econometric estimators of structural demand and supply models, science and engineering demand and supply, and identification problems in detailed wage decompositions.

Selected science workforce publications:

- “Regression Methods for Correcting Gender Salary Inequities Between Groups of Academic Employees” (with Michael Ransom) in R. Toutkhoushian (ed.), *Conducting Salary Equity Studies, Part I. New Directions for Institutional Research*, (San Francisco: Jossey-Bass, forthcoming).
- “Technology Transfer and Academic Capitalism,” (with Larry L. Leslie and Gary Rhoades), in AAAS Science and Technology Policy Yearbook, Teich, et.al eds. American Association for the Advancement of Science, 2001
- “Women and Minorities in Science and Engineering: A Life Sequence Analysis” (with Larry L. Leslie and Gregory T. McClure), *Journal of Higher Education* , vol. 69, no. 3 May/June, 1998.
- “Women and Minorities in Higher Education” (with Larry Leslie), in *Higher Education: Handbook of Theory and Research*, XIII, John Smart, ed., Agathon Press, 1998.
- “Scientist and Engineering Supply and Demand” (with Larry Leslie), in *Higher Education: Handbook of Theory and Research* , IX, John Smart, ed., Agathon Press, 1993. Reprinted in *The International Library of Critical Writings in Economics*, Mark Blaug, series editor, *The Economics of Science and Innovation* , Paula E. Stephan and David Audretsch, Volume editors, Edward Elgar Publishing Ltd, 1999.
